FACTORY PROFILE

A 35,000 m² plastics plant in Riyadh Second Industrial City

AERMAK Intelligent Factory For Manufacturing is a plastics injection and blow-moulding factory registered in Saudi Arabia under commercial registration 7055233212. The site runs 48 presses from 120T to 1,800T clamp force, an in-house CNC mould workshop, PE pipe extrusion and a 20,000 m² smart greenhouse where our own products are grown and field-validated before release. Factory audits, sample visits and video walkthroughs can be arranged with our sales team.

CAPABILITIES

Injection moulding

48 presses from 120T to 1,800T, multi-cavity tooling and engineering PP/HDPE compounds for horticulture, municipal and industrial parts.

Blow moulding and PE pipe extrusion

Hollow parts and polyethylene pipe profiles are produced on the same site as the injection lines, under one production plan.

Custom mould tooling

In-house 5-axis CNC, wire EDM and mirror polishing, with DFM review and T1 first-article approval before mass production.

Greenhouse validation

Drainage, ventilation, stiffness and UV performance are observed in our 20,000 m² greenhouse under Riyadh summer conditions before a design is released.

ISO 9001:2015 quality management

SASO / SABER per product scope

SFDA food contact where applicable

ZATCA-compliant tax invoicing

PRODUCT RANGE

Catalogue products

Current active products from the production programme, grouped by category. Prices are per SKU in Saudi Riyals, excluding 15% VAT; MOQ, lead time and volume tiers are shown on every card.

HORTICULTURE & NURSERY POTS **FEATURED**

Traditional Matte-Black Planting Pot — Mini (Ø14 × H12 cm)

SKU **AER-TP-MINI** MOQ **1,000** pcs

Lead time **Immediate Stock / 3–5 Days Production**

Traditional matte-black planting pot in Mini, Ø14 × H12 cm — UV-stabilised PP, weather and heat resistant, ideal for herbs, succulents and windowsill planting.

TRUST & COMPLIANCE

Certifications and compliance

AERMAK operates a quality management system certified to ISO 9001:2015, with Saudi SASO/SABER conformity assessed per product scope and SFDA food-contact approval for packaging items where the application requires it. Certificate scope, validity and copies are confirmed for the specific SKU and destination market; this catalogue does not publish certificate numbers, issue dates or issuing bodies.

ISO 9001:2015

Quality management system covering moulding, inspection and control of non-conforming product.

Certificate and scope: on request

SASO / SABER

Conformity assessed per product scope; a SABER certificate of conformity or self-declaration is confirmed per SKU and HS code.

Applicable scope: confirmed per order

SFDA food contact

Food-contact approval for food-packaging items where the application requires it; industrial containers are not food-contact items.

Applicability: confirmed per product

ZATCA e-invoicing

Prices in Saudi Riyals with 15% VAT shown separately on a compliant tax invoice.

VAT: 15%, shown separately

Supporting documents available on request

- Material traceability records - resin supplier, grade, masterbatch and additives.
- Batch certificates with SASO QR batch traceability.
- CMM dimensional reports and first-article inspection reports.

> Certificate copies are issued for the specific SKU, market and tender. Contact sales@aermak.sa with the product, destination and purpose, and our team confirms the applicable certificate, its current scope and validity in writing.

ORDERING & LOGISTICS

From enquiry to delivery

Minimum order quantity

MOQs are set per SKU and per material. The matte-black pot series carries a catalogue minimum of 1,000 pcs per size; large containers start at 200 pcs, road barriers at 50, pails at 500 and film at 50 rolls. Mixed-size orders can be consolidated on one proforma when the production schedule allows.

Pricing and VAT

Prices are quoted in Saudi Riyals on graduated volume tiers and exclude 15% VAT. Every quotation states the tier, unit price and effectivity date; the stamped proforma adds 15% VAT and is issued as a ZATCA-compliant tax invoice.

Payment terms

An order request creates a procurement enquiry. After stock and delivery terms are verified, sales issues a stamped proforma; standard settlement is bank transfer to our corporate account at Riyad Bank, quoting the proforma number. Milestone schedules for project and container orders are agreed in writing.

Lead times

Ex-stock matte-black pots are dispatched immediately from our Riyadh yard; larger production runs typically complete within 3-5 working days and large containers or pails within 5-7 working days. These are factory windows, not door-to-door transit times, and the proforma states the committed dispatch date.

Delivery in Saudi Arabia

Domestic distribution covers Riyadh, Al-Qassim, Dammam, Jeddah and other regions, with palletized loads stretch-wrapped and lot-labelled for forklift unloading.

GCC and export

Export orders move by road to Dammam port or through Riyadh dry port for sea freight. Commercial invoice, packing list, certificate of origin and conformity documents are prepared for the destination; Incoterms, freight, palletization and offloading are quoted as separate lines.

Samples

Catalogue samples are arranged from Riyadh stock; sample quantity, unit price, courier and palletization are quoted before dispatch. For custom parts, T1 first-article samples are inspected dimensionally and sent with a first-article inspection report before mass production.

Custom moulds and OEM

Send STEP, STP, DWG, DXF or PDF drawings through the custom enquiry form (up to 5 files, 25 MB each). A mutual NDA can be executed before drawings are shared; our mould department returns a preliminary DFM report and tooling quotation within 24 business hours.

HOW TO REQUEST A QUOTATION

01

Send your list

SKU, sizes, quantities and delivery city, by email or through the custom enquiry form.

02

Receive a proforma

Tier price, 15% VAT, dispatch window and delivery terms in one stamped document.

03

Confirm and produce

Bank transfer against the proforma; production is scheduled on confirmation.
